New webinar “Food Safe Packaging Hotmelts”

Henkel Shares Important Knowledge on Food Safe Packaging Hotmelts

Food packaging safety is an issue to which Henkel – as the leading solution provider for adhesives, sealants and functional coatings worldwide – is deeply committed. On its knowledge platform “Food Safe Packaging Portal” Henkel will host a webinar “Food Safe Packaging Hotmelts – Everything you need to know” on September 15, 2016 at 10 AM (CEST).

In their interactive webinar, Henkel experts Ralf Eberhardt and Philippe Cordier will give in-depth information on many aspects of hotmelt adhesives for packaging applications, like the legal framework, essentials in migration or general rules to ensure food safe packaging hotmelts. Furthermore, they will talk about food safety in relation to components and applications of end-of-line packaging hotmelts and supplier declarations on food safety aspects.

Food safe packaging expertise

Henkel’s live webinars focus on important issues surrounding food packaging safety. Participants will also be able to pose their questions live to the Henkel presenters during the webinars. Those interested in participating can register at www.henkel.com/foodsafety. In the second half of 2016 Henkel will be holding further webinars on topics such as non-intentionally added substances (NIAS), plasticizers in food packaging, aliphatic laminating adhesives or food contact statements.

Henkel operates worldwide with leading brands and technologies in three business units: Laundry & Home Care, Beauty Care and Adhesive Technologies. Founded in 1876, Henkel holds globally leading market positions, both in the consumer and in the industrial businesses, with well-known brands such as Persil, Schwarzkopf and Loctite. Henkel employs about 50,000 people and reported sales of 18.1 billion euros and adjusted operating profit of 2.9 billion euros in fiscal 2015. Henkel’s preferred shares are listed in the German stock index DAX.
